- Migration & Mentoring legacy teams about the new practices and how to apply them to their workflow via video calls and documentation guides.
- Effective communication with our team, customer teams and customer stakeholders.

SUMMARY

Over 10 years of experience with software development and distributed systems. I started editing the source code of games at around 13 years old.

PROJECTS

- DevInstall.com
- HomelabX.net

TECHNOLOGIES

Infrastructure

AWS GCP Docker Swarm
Database Clusters GitLab
Jenkins Terraform Ansible
Vagrant Harbor DDoS
Email OpenShift
Kubernetes DNS

Backend

REST API Node.js Express
nginx Perl Bash Python
Java Testing SQL
MariaDB Postgres
MongoDB MySQL

Frontend

HTML5 CSS3 SASS SCSS
Stylus JavaScript Vue
Angular Android XCode
React Jest Gulp Yeoman
Webpack Cordova Vite

Sr. Software Engineer & Team Lead
Softtek
